## HOUSING CHALLENGES WHILE ON ROTATIONS

Housing can be one of the greatest challenges while out on rotations but it doesn't have to be! The key to securing affordable housing is planning ahead of time and using your resources well. A good rule of thumb is to begin looking for housing 4-8 weeks in advance.

Plan to complete your rotations in locations where family or friends are willing to house you or take advantage of free AHEC housing when available. Additionally, other students across the nation are great resources to help you find affordable housing in an unfamiliar area. Facebook groups are great places to get into contact with these students and spread your potential housing net even wider. You may also gather some fun local tips along the way!

## HOUSING RESOURCES

- Family and friends
- AHEC housing
- Student Housing
- Travel healthcare sites
- Furnished Finder
- Rotating Room
- Extended stay hotels
- AirBnB

## SAVE ON HOUSING

- ☒ Get roommates.
- ☒ Increase your commute.
- ☒ Ask for discounts.

As one considers leasing for the next year, be sure to ask your landlord for discounts, consider moving further from campus, or adding roommates to decrease costs. Be sure to shop around to get the best deal that checks all your needs.

## MUSC HOUSING WEBSITE

Use the [MUSC housing website](#) to search for roommates or sublease your space while away on rotations.

Total the rent for each room and search by the total to avoid excluding viable housing options.
